
PUBLIC NOTICE

Reference is made to the public notice issued on August 8, 2024, suspending beryllium exportation. Additionally, it refers to the mineral inspection, due diligence, and stock assessments conducted by the Rwanda Mines, Petroleum, and Gas Board (RMB) across various mines and exporter premises.

In view of these actions, the RMB hereby announces the resumption of beryllium exportation. All mineral exporters are strictly required to adhere to the mineral certification and export procedures that have been provided. Certification will prioritize inspected stock, followed by new production, in full compliance with the established mineral certification and export procedures. The above-mentioned procedures include but not limited to traceable mineral sources and proof of purchase.

Uncompliant beryl stock will be seized and punitive measures will be taken as stipulated in the Mining Law on mining and quarry.

Done at Kigali on 22th November 2024.

KAMANZI Francis
Chief Executive Officer
